

Steeplechase has a beautiful annual tradition of illuminating the neighborhood on Christmas Eve. The luminaries are created by each homeowner and placed curbside.

DIRECTIONS TO MAKE CHRISTMAS LUMINARIES.....

Use a plastic milk jug filled with kitty litter or sand approximately 2-3 inches deep. Candles, distributed throughout the neighborhood, should be placed in the bottom. Please place the luminaries spaced across the width of your property along the curb. Candle lighting is at approximately 5 pm. The candles will burn for about 10 hours.
